

Clan Mothers is excited to keep moving things forward towards more detailed designs for the future use of the site. The professional team they have gathered continues to dedicate time and resources towards making this very worthy venture into a reality. We all firmly believe this project will become a country-wide example for wholistic healing for the many women in our province who need it.

There are a number of activities we anticipate in the coming season:

1. Clan Mothers would like to invite neighbours to experience the beauty of the site and to have a chance to meet some of the Clan Mothers elders face to face to make introductions. To this end they are planning to invite neighbours to a 'walk-about' sometime early in June. The idea is to meet at the entrance of the site and then walk around the site together with representatives. Along the way, people can get to know each other share questions and thoughts and generally put a face to new neighbours. More details will come as planning for this walk-about moves forward.
2. In the coming weeks, neighbours may see a small survey crew (2-3 people) on site preparing a survey of the lands. This survey will help the design team move to the next stage of designs.

Should you have any questions please don't hesitate to reach back to us.

Thanks as always for your interest in this project. Our aim as always is to help ensure at minimum everyone has current and accurate information. Beyond that our sincere hope is that people will embrace new neighbours and support very worthy goals of site preservation and healing.

Donovan
