**Subject:** Coalition to Save Lake Winnipeg Update

Dear Lake Winnipeg Advocates and Friends,

Attached you will find the Coalition to Save Lake Winnipeg: February 2020 Update.

This issue includes:

- A review of the City of Winnipeg and the Province of Manitoba's announcement and publication of the "**North End Sewage Treatment Plant – Environment Act Licence 2684 RRR – Interim Phosphorous Reduction Plan and Nutrient Removal Implementation Plan**".
- Summary of the "**International Joint Commission Proposed Nutrient Concentration and Loading Targets on the Red River**".
- Engaging with your **Rural Municipality**.

All 3 discussion points in this update include **Concerned Citizens actions**. Your contribution in Citizens Actions strengthens the voice of Lake Winnipeg Advocacy. Thank you in advance for participating in sharing your concerns with elected officials. Please feel free to share this update and C.S.L.W. contact

information with interested citizens.

**Thank you**

**Coalition to Save Lake Winnipeg**
